Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-27 are pending in the application, claims 10-27 are withdrawn from consideration.

Election/Restrictions

2. Applicant's election with traverse of Group I, claims 1-9 in the reply filed on August 24, 2005 is acknowledged. The traversal is on the ground(s) that that groups I and II seem to be related as subcombination and combination rather than an intermediate-final product. This is not found persuasive because the examiner still maintains that groups I and II are related as intermediate-final product. However, it is noted that since claim 10 is dependent upon claim 1, claims 10-14 will be rejoined at the time of allowance of claim 1.

The requirement is still deemed proper and is therefore made FINAL.

3. Claims 10-27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on August 24, 2005.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1772

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Deaver (U.S. Patent No. 4,005,035).

Deaver discloses a polymeric matrix material comprising foamed polyurethane and an inorganic particulate. The inorganic particulate is particulate glass fibers disposed throughout the polymer matrix, is present in an amount ranging between about 45 wt% and about 80 wt% based on the total weight of the composition, and has a particle size distribution from about 0.0625 in. to below about 325 mesh. See abstract and col. 3, line 41 through col. 4, line 2.

The limitations regarding how the polyurethane is formed are method limitations and do not determine the patentability of the product, unless the process produces unexpected results. The method of forming the product is not germane to the issue of patentability of the product itself, unless Applicant presents evidence from which the Examiner could reasonably conclude that the claimed product differs in kind from those of the prior art. MPEP 2113.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alicia Chevalier whose telephone number is (571) 272-1490. The examiner can normally be reached on Monday through Friday from 8:00 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon, can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
